Guidance on Adverse Event Reporting

1. Scope

This guidance applies to all sponsors and contract research organisations conducting clinical studies in the region.

2. Reporting requirements

The sponsor shall submit the safety report within 15 days of becoming aware of the event.

Records of each report must be kept for five years.

3. Definitions

Adverse event is defined as any untoward medical occurrence in a participant.

4. Enforcement

Contact the office for general questions.

5. Transition period

Sponsors have 90 days to comply with these requirements.
